THE PROFESSIONAL'S CHOICE FOR HAND CRAFTED, ETHICALLY SOURCED, HAIR EXTENSION SOLUTIONS

Hair Quality

We are proud to offer the highest quality human hair available, because, let's face it, who doesn't want to work with the best the industry has to offer? Our extensions are made with only 100% Remy human hair, which means the natural cuticle is preserved to allow all the hair strands to run the same direction. Remy hair has minimal matting and tangling and lasts for months with proper care.

All of our hair comes from the finest sources, and we use ethical practices and procedures every step of the way. Due to an exclusive collaboration with one of the world's oldest and most prestigious raw human hair authorities, Babe is able to offer professional hair extensions of the highest quality with reliable consistency to the stylist and the consumer alike.

Babe hair is gently washed, colored, and treated with the utmost care and precision. We don't add any silicone or unsavory chemicals; we ensure that the hair has the perfect color, tone, and texture. It will feel just like your own hair!

Having spent more than a decade in the salon industry, I've had the opportunity to advance from a receptionist to roles as a stylist, manager, and educator. My genuine passion is in assisting stylists in enhancing their skills and enabling them to make their clients feel extraordinary. One of the most rewarding parts of my career is teaching others to refine their craft. By integrating extensions into my services, I have not only increased my income but also ignited my creativity behind the chair, allowing me to provide even greater value to my guests!
